The National Day of ,the United States, also known as Veterans Day and Veterans Day, , is very lively on both sides of the East and West this year. ,LA Fleet Week (Los Angeles Fleet Week, May 24-27, 2024) was held near the military port of Los Angeles, the western city of Los Angeles. The level of fire in the field , is very rare. This year's news is particularly appealing, , with the 13-year-old nuclear-powered aircraft carrier, the USS Carl Vinson, which will dock at the Los Angeles docks , and is free to visit.

I remember in the 1990s, before El Monte Air Force Base was closed, , there was an Air Show, which was filled with all kinds of aircraft , and did not need any documents to enter. My American colleague joked with me: You're not a spy, , how can you be so interested in these? The second is Andrews Air Force Base, a , suburb of Washington, D.C., where there are really many types of aircraft, , and many historical antiquities. That was more than 20 years ago, , and there was no need to look at any documents.

The interest in aviation and navigation , is a natural hobby for many men, , especially the

combination of aircraft carriers, , coupled with the fumigation of movies in the past, , and it is the place where many people dream of watching cards. In 2000, , Shenzhen first introduced the aircraft carrier shell, , the former Soviet Union Minsk, , visited especially, , became a local scene. It was the first time I had ever seen an empty-hulled aircraft carrier, but it was already quite shocking. Later, he went to San Diego , and visited the decommissioned USS Midway several times, , and , once was guided not only by the main commander of the original fleet, but also watched various ceremonies of active officers and soldiers. Impressions, , the deck is full of all kinds of aircraft , for veterans and families to do nostalgic tours, , of course, to satisfy the curiosity of tourists.

For more than a decade, , the South China Sea and the East China Sea have been at peace, , and the Calvinson has appeared there many times, , especially her participation in the final special mission to exterminate the terrorist bin Laden. The big red dot on the deck , was where bin Laden's last stop in the world. Being able to board the most advanced nuclear-powered aircraft carrier in service , and being able to witness the legendary stealth fighter F35 is a dream of many people, , and I am no exception.

However, this year to successfully board an active aircraft carrier, , it is not easy, , to get up early, , to line up in long lines, , but also through many strict inspections. A rough estimate is that , , less than 10 percent of the people who visit will be able to board the aircraft carrier. The aircraft carrier controls the flow of people, ,the tourists are scarce, ,and the camera is not afraid of the landscape of people. On such a large deck,, there are only a few aircraft : the F18 Hornet, F35-C, early warning aircraft and helicopters. ,On the cabin and deck, there are military explanations, , and one of them's Carl Vinson caps , is particularly striking. I should buy it before I get on the boat, , and the photo will be more eye-catching, ,but unfortunately, after getting off the boat, I found the sales point of the soldiers ,and took a picture on the shore.

I'm ,not too interested in the facilities inside the aircraft carrier. The construction of aircraft carriers in the United States , has accumulated a lot of experience and technology, , and has a history of inheritance. The internal environment , is not much different from the Midway. The former is 41, 41, the 3030-year-old carrier numbered 70, is expected to be replaced by a new Ford-class aircraft carrier in 2033, , the U.S. Navy's third-generation nuclear-powered aircraft carrier. Most of the decommissioned aircraft carriers and warships are sealed, ,and after the equipment is replaced,, they can be put back into wartime. Aircraft carriers are the crystallization of modern technology, , so some people say that ,modern aircraft carriers in many countries are not as good as Japan 80 years ago. Not to mention the U.S. aircraft carrier. The shell is easy to imitate, , but the connotation is not the realm that the curve is overtaken at will. Coupled with sealed aircraft carriers and amphibious assault ships, , the United States can come up with dozens of aircraft carriers at any time, , which is not a joke.

The U.S. military is not afraid to take photos. After entering the forbidden area,, Just don't focus too much. This is called a society of freedom, openness, self-confidence. If you can't board an active aircraft carrier, there are also plenty of military equipment for tourists to play with, , such as tanks, , Humvee,, howitzers, javelins, , helicopters, various souvenirs and food stalls. There ,are a lot of Chinese tourists, and Chinese laughter can be heard everywhere. In the park, "Visiting the battleship Iowa is one of the highlights. Tickets are

required to visit. In fact, this early ship was already a museum. It was one of the most famous and powerful warships in the United States during World War II, built in the early 1940s, and participated in the Pacific Campaign in World War II. On board the battleship, you can visit the main gun, anti-aircraft guns and other on-board weapons, as well as the ship's officers, soldiers' activity space, such as the war room, the rest area, the kitchen dining area, the laundry room, the barber, the gym, etc. Because it has become a museum, the ship has set up restaurants, supermarkets and other service facilities. ”The Iowa strategic ships , of the same class, such as the Missouri at Pearl Harbor, , which we have visited, , have visited, so we did not go up to visit. At the same level is the size of Japan. Their tonnage, like the former Soviet Union's Minsk aircraft carrier, , less than half of the Carl Vinson, , is equivalent to the modern U.S. amphibious assault ship, , that is, the helicopter carrier.

On Chinese social media,, a large number of photos and videos of Fleet Week were uploaded a few days ago, , and images of men, women and children interacting with the military. Many people look at , it, marveling at the reality of freedom, openness, self-confidence... But there are also troublemakers, , such as the title of the tattered warship, , and after the photo was locked into the small black room, , and so on. Don't think about , it, these mosquitoes are , mostly masterpieces of a large institution.

Please see a few , photos, individual photos taken from netizens California sunshine,, I would like to thank you!

Are you excitedly appreciating the "human murder weapon", have you ever thought about dying under this murder weapon?

8888 2024-6-1 06:19 1 Reply

The original realm of **the dragon** knife: You are eager to appreciate the "human murder weapon", have you ever thought of dying under this murder weapon of countless souls?

Enjoy the food on the table. Have you ever thought about dying behind his innumerable pigs, cows and ducks?

General Judge 2024-6-1 06:53 3 Reply

The countless souls under the murder weapon are not necessarily innocent souls, such as the Japanese, Germans, and Russians, all of them are self-seeking. Hitler also fought the Soviet Union, also because Stalin signed a secret contract with Germany to launch World War II, but the Soviet Union was two weeks late, that is, occupied Poland without the stigma of launching World War II, so Hitler vowed that the Russians would pay 20 million souls.

The soul of the Cultural Revolution is the soul of the dead, but the Communist Party does not talk about it, and the Cultural Revolution first implements military control over the whole country, otherwise what murder weapon is it?

Temple of Literature 2024-6-1 07:52 1 Reply

总裁判The countless souls under the murder weapon are not necessarily innocent souls, such as the Japanese, the Germans, and the Russians, all of them are self-seeking. Hitler also fought the Soviet Union because Stalin signed a secret contract with Germany to launch World War II, but the Soviet Union was two late.

Say it well! Long time no see, everyone misses.
